

The River Fund Maine COVID-19 Relief

In these difficult and uncertain days, The River Fund Maine believes that no family should be placed in the painful position of having to choose between educating their children and meeting their family's basic needs. As a result, The River Fund Maine is willing to pay your family's internet access fees for the next three months (up to \$100 in total) so that your children can continue their on-line schooling without burdening your family's financial resources.

If you live within the MSAD 44 area, have a child enrolled in an accredited school, and have been recently furloughed as a result of the devastating COVID-19 situation, we encourage you to apply for this stipend immediately.
